

CONSERVATION OF ANGLO-ARABIC SR. SECONDARY SCHOOL, AJMERI GATE

A project proposal regarding conservation of the historic quadrangle was presented and evaluated to DUHF. The historic quadrangle to be used to its original use as a 'Centre of learning' and the structure not to be put to extensive use.

Architectural Features

The Historical Quadrangle

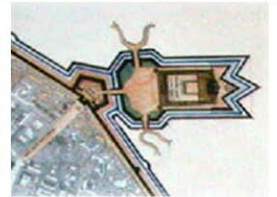

Massive red sandstone portal

Ghazi-ud-din's tomb with mosque

Bengal style orial window

Historical German Plan

Built in the Indo Sarasenic style, this complex is architecturally rich in design having all the desired elements and components of a Madrasa that is, Mosque, Makhtab, a library and a double-tier of Hujras for the students. This building is one of the few remaining specimens of the traditional Mughal School.

Operational Elements

- * To restore the pristine elegance of the Historic Quadrangle
- * To open all arches and verandahs
- * To remove additions on terrace
- * To remove the toilet block in the central courtyard
- * To provide a facelift to the front elevation
